Hyperbaric Lifeboat Comms Box

Divex have recently added to their existing range of communications products by designing a new and improved Hyperbaric Lifeboat Comms box packaged into compact high grade stainless steel enclosures to withstand the harshest of environments.

The Hyperbaric Lifeboat Comms Box allows clear communications between the chamber occupants within the Hyperbaric Lifeboat and external helium speech unscrambler.

Features include:

- Call switch.
- Volume control.
- Headset select switch.
- Press to talk switch.
- Headphone socket.
- Robust stainless steel enclosure (316 grade).
- Mounting lugs for easy installation.
- Internal PCB mounted on an easily removed plate to improve installation.
- Single PCB terminal accepts all incoming wiring making cable termination to the comms box very easy.
- Low profile components.
- Flush mount chrome call switch.
- Volume control when using headset.
- Built in panel microphone.
- Electret Mic insert.
- Frequency Response: 50Hz to 13kHz
- Sensitivity: 60dB \pm 3dB
- Impedance: 1k Ω
- Flush mount PTT switch.
- Standard headset jacks allowing for a wider range of headsets to be used.
- Flush mount headset select switch for selecting either panel microphone/speaker or headset.
