Hot Water Shroud: For Kirby Morgan 37 and SuperLite® 17B, 17C, 27®, KMB-18 and KMB-28 Band Masks® "B" side block only.

The Hot Water Shroud can be used whenever diving operations are conducted on mixed gas, or when diving in cold water. The shroud helps warm the diver's incoming air, thereby lessening diver's heat loss.

Welding Lens Assembly: This Welding Lens Assembly will fit all SuperLite® Kirby Morgan® Helmets and Band Masks®. The port retainers are supplied with two plug screws which are designed to protect the two threaded holes on the port retainer which are provided for the welding lens assembly.

There are three densities of lens available:

- Light
- Medium
- Dark

This assembly is designed to provide visual protection only!

Kirby Morgan Accessories

Kirby Morgan/SuperLite/HelioX diving masks & helmets are made by Kirby Morgan Dive Systems Inc.

© Kirby Morgan Dive Systems Inc.

Helmet/Mask Carrying Bag: To protect your Kirby Morgan® Helmet or Band Mask®, the KMDSI helmet/mask carrying bag should be used when transporting or storing your helmet between jobs. The DSI® bag is made from extra heavy duty, black, ripstop nylon. The bottom of the bag is padded for additional protection. Grommeted drain holes allow the bag to breath. The bag is also equipped with large carrying straps and side pockets.

Regulator Adjustment Tool Kit: The Tool Kit is available for setting up and adjusting the regulator on your SuperLite®-17, SuperLite®-27 helmet KMB-18 and KMB-28 BandMask® for maximum performance.

World leaders in diving equipment technology

SL-17 Strap Kit: Beginning in January, 2004, all SuperLite® 17A/B and MK-21 Helmets will come equipped with a new Yoke Strap, Yoke Strap Guide and a new helmet mounted chin strap.

These new parts are retrofittable on all older SuperLite® 17A/B and MK-21 Helmets and are available in a kit.
