## CT3008 Inspection Camera

**The CT3008 is a high resolution, high quality, low light underwater colour CCD camera with superb image quality.**

An extremely compact high quality colour camera which features an excellent distortion free rectilinear fixed focus, auto iris, wide angle lens. The camera is equally suitable for diver helmet mounting, hand held and ROV mounted inspection work.

The low light sensitivity coupled with such high resolution and exceptionally wide but geometrically accurate pictures combine to make an extremely versatile tool for close inspection work through to general observation tasks.

### Specification

Technical Specification	1/3" Interline Transfer CCD image sensor 2.6mm, F1.6 Lens (Alternatives available)
Sensitivity	0.02Lux/F1.2
Horizontal Resolution	540 TV lines
Operating Temperature	-10°C - 40°C
Storage Temperature	-30°C - 70°C
Signal to Noise	+50dB
Video	Output volt peak to peak into 75ohms
Power Requiements	12 volts DC 2 Watts +/- 10%
Housing Material	Anodised aluminium Angle view in seawater 84° (Alternatives available)
Connector	Subconn 8-pin (alternatives available)
Depth Capability	3000msw
Dimensions	115 x 65mm lens diameter
Weight	400gms (250gms in seawater)
