

Specialist Cleaning

DESCRIPTION

CLEANING FOR OXYGEN USE

JFD Cowan's specialist cleaning services support its manufacturing, maintenance and in-service support programs.

JFD Cowan has Quality Management Approval by BAE Systems Australia and is approved by the US Navy to clean to its Mil 1330D Standard.

FACILITIES

JFD Cowan has invested in considerable infrastructure to achieve its cleaning objectives.

This includes trained technicians, pre-clean rooms, cleaning laboratory, an advanced water filtration system, ultra sonic baths etc.

A fully equipped mobile cleaning service van supports field activities.

Previous clients include:

- **Prince of Wales Hospital**
- **Australian Submarine Corporation**
- **BAE Systems**
- **Australian Navy**
- **ADI (Australian Defence Industries)**
