Aquabeam Submersible Navigation Light

Submersible Navigation Lights are a specifically designed range of navigation lights for submersibles which comply with the International Marine Collision at Sea Regulations. Each lamphead is individually pressure tested to 20 Bar, 24 volt operation.

The lamphead body is designed to accommodate most bulkhead connectors presenting a 1/2" UNF mounting thread, e.g. Slingsby Engineering UE 157/164/3, Electro Oceanics B53E3M-1.

Alternatively, the lamphead may be fitted with an Aquabeam penetrator with short whip and almost any in-line connector, viz: Marsh Marine type RMG-3-MP (3CCT), RMG-2-MP (2CCT), Subcon IL3M (3CCT), LP1L3M (3CCT), IL2M (2CCT), Slingsby Engineering UE 157-5A 163/3.

Lamphead Function	Description	Order Code
All Round Light	360° White	LA129AA
Masthead	225° White	LA129AB
Port	Red	LA129AC
Starboard	Green	LA129AD
Stern	White	LA129AE
Towing	135° Yellow	LA129AF
Marine	360° Yellow	LA129AG
Marine	360° Red	LA129AH

Specification

Electrical	
Supply Voltage	24Vdc
Current Consumption	1.1A
Typical Luminous Flux	320lm
Typical Colour Temp	Various
Lamp Life	1000 Hours
