Aquabeam Helmet Light DHL-2

The Aquabeam Diver's Helmet Light, DHL-2 is a hard anodised and marine sealed, aluminium luminaire, offering a variety of build options, beam angles and colour temperatures. In its standard form, it weighs 500 grams dry and 185 grams immersed. Its maximum diameter is 60mm and overall length excluding connector, 101mm. The maximum operating depth of the DHL-2 is 700 metres. All components are available as spare parts.

Mounting: M6 threaded spigot with nut or threaded socket with bolt, 0.312ins. Whit. (to make with dovetail bracket assembly). Sockets to other dimensions and threads supplied to order. The universal helmet bracket depicted is primarily designed for fixing to the current, Kirby Morgan range of helmets and face plates but with minor modification, may be attached to most helmets and full face masks. The bracket is fashioned from 0.060" (1.5mm) stainless steel sheet and may be hand bent for orientation of the luminaire.
