T: +44 (0)1224 740145  
F: +44 (0)1224 740172

**Gasmizer:** For efficiency and correct chemical balance, cleanliness and pure convenience, Divex offers pre-packed cartridges to install into Gasmizer Reclaim Systems. Each cartridge contains Sodalime loaded in the correct proportions for eight man-hours of diving (dependant upon conditions). Simply unscrew the filter-tower, pull the old one out, insert the new one, reseal, and you're back diving - no fuss, no mess. Each cartridge is suitable for 8 man hours diving.

**Gaspure:** A similarly convenient cartridge concept, but containing a chemical filter bed to remove carbon dioxide and odours, and carbon monoxide from the chamber environment to suit the Divex Gaspure System. Each cartridge will process up to 100,000 cu.ft (2.832 cu.m) of gas.

**GLOBAL  
LOCATIONS**
