JFD Health and Safety Policy Statement

JFD is the world leading underwater capability provider, serving the commercial and defence markets with innovative diving, submarine and hyperbaric rescue, technical solutions and services..

Our expertise lies in the delivery of complex, multi-stakeholder projects. Our pedigree stems from over 30 years operating safely in the challenging subsea environment.

In line with the company mission statement and our values JFD has set out the following health and safety policy as part of the company business management system.

The primary objective of our health and safety management system is the protection of the health and safety of our people and those affected by our business.

We are committed to:

- Developing and implementing a health and safety management system in accordance with international standards and specifications for health and safety such as OHSAS 18001 and the ISM code.
- Complying with the terms of all national and international health and safety legislation for the areas in which we operate.
- The provision and maintenance of safe and healthy workplaces, facilities and work equipment.
- Involving, consulting and communicating with employees, contractors, customers, regulatory authorities and the local community.
- Ensuring that all employees, contractors and working partners understand that they have a personal responsibility for health and safety and remain accountable should their actions result in harm to themselves and others.
- Providing clear instructions and information, and adequate training, to ensure employees are competent to do their work without causing or sustaining harm.
- Assessing employee's fitness to work through the implementation of an occupational health programme.
- Defining measurable objectives and targets for monitoring and improving performance.
- Implementing programmes and appropriate protective measures to control and manage risks, including appropriate monitoring of individuals potentially affected.
- Responding to health and safety concerns raised by employees, clients, contractors and the local community.
- Communicating that all personnel have the right and duty to stop the job if they consider it unsafe.
- Developing, implementing, maintaining, managing and reviewing the company business management system in order to continually improve and ensure effectiveness in meeting the needs of the business.

The Management team shall ensure that the Health and Safety Policy is communicated and understood throughout the organisation.

The Health and Safety Policy shall be made publicly available, and will also be displayed in prominent positions throughout company facilities, and will form part of all employee training. The policy will be reviewed periodically to ensure its continued suitability. In addition to regular reviews, the contents of this policy will be amended as required to reflect any changes in scale and nature of our operations, or if required by changes in legislation.

A handwritten signature in black ink, appearing to read 'G. Corbetta'.

Giovanni Corbetta 19th July 2019
